May 8, 2020

Abrams Fensterman is a law firm with multiple offices and approximately 75k square feet. We employ 200+ employees and committed to their health and well-being. Bioprotectors LLC was hired to perform a two-step process of disinfecting and treating our office space on March 18, 2020. They not only performed this process in our offices but also in the kitchen area, hallways and all conference rooms.

We were very impressed with the crew that was sent. They were extremely knowledgeable, professional and courteous. The product and procedure that was used, left no residue and dried to be invisible even on glass. We were very satisfied with the microbe tests that were conducted before and after showing the product was doing its job. We are aware that they are using the only product on the market which is water based and has EPA and FDA approvals. What was most important to us is that the product applied has afforded our office protection against all germs, virus's and bacteria for a period of 90 days. We intend on engaging them again to apply the product.

We are incredibly appreciative that BioProtectors expertly helped us further our mission to keep all our employees safe as possible.

I would be glad to provide more information if need be with regards to my recommendation and validate the work that was performed by BioProtectors.

Sincerely,

Dawn Addabbo
