

THE TRUMP WORLD TOWER
AT
UNITED NATIONS PLAZA

Re: BioProtectors

April 28, 2020

To Whom it May Concern,

Trump World Tower is a 90 story residential building on 48th St and 1st Ave with 367 residences and many amenities including health club, spa, children's room, etc. BioProtectors LLC was hired to perform a disinfecting of the hallways, elevators, health club, Children's Room, lobby and employee locker rooms, breakrooms and back of the house areas. This disinfecting took place on March 11, 2020.

The crew that was sent was very professional and courteous. The product and procedure that was used, to our surprise, left no residue and dried to be invisible in 3 minutes even on glass and the large amounts of polished brass that we have in our building. We were very satisfied with the microbe tests that were conducted before and after showing the product was doing its job.

Trump World Tower has had no reported cases of COVID-19 reported in the building and we have no positive cases of COVID -19 in any of our 50 employees to date. To this we credit our hard work in training employees on Social Distancing, disinfecting and our early disinfecting with BioProtectors LLC. If you have any questions, please call me at 646-313-7614.

Sincerely,

John T. Henriques
